

Scenes

Scenes is characterized by a gradual build-up of colours, hues, and textures. Each tile has its own character and identity, creating natural layered dimensions. By applying the tiles individually or in combination, scenes are created automatically. This offers endless possibilities for variation. Thanks to the easily manageable format of 15 × 15 centimetres, Scenes always fits. The tiles can be used in both smaller and larger spaces. The desired character is always achieved.

Scenes comprises eight natural, cool and warm colour groups: from dark anthracite to warm ochre. For an intense colour perception and depth, each colour group comprises four different textures: grain, clay, sand, and grit. Refined effects are created in the pattern thanks to the interplay of textures.

Service

Sample service

Choosing the right tile purely on the basis of photos can be tricky. You can more easily judge the quality, colour, texture, and the design if you have the tile in your hands. Colour samples and sample folders can therefore always be requested free of obligation via your project adviser, Customer Service, Mosa showrooms, partners, and our website.
