

Global Collection / Globalgrip

The Global Collection brings together functionality, durability, sustainability, and aesthetics. The series comprises budgetfriendly floor and wall tiles in more than fifty colours, distinctive and harmonized. The design options for colour patterns are endless. The Global Collection is particularly striking due to its completeness. In addition to the tiles, the series comprises a broad selection of modular accessories, functional extras such as stair-treads, tactile tiles for the visually impaired, and floor tiles with greater antislip properties (Globalgrip).

The Global Collection comprises a palette of around forty subtle colours, supplemented by a variety of shades of white and other striking colours. Available in gloss, satin, and speckled. The colours of the wall and floor tiles are tailored to each other, resulting in walls and floors that form a natural unity.

Service

Sample service

Choosing the right tile purely on the basis of photos can be tricky. You can more easily judge the quality, colour, texture, and the design if you have the tile in your hands. Colour samples and sample folders can therefore always be requested free of obligation via your project adviser, Customer Service, Mosa showrooms, partners, and our website.

Documentation and personal advice

From design to implementation, you can turn to Mosa at every stage of the process for inspiration, production information, or advice. Our website features a wealth of information and resources, including references, brochures, technical specifications, other specifications, and much more. If you would like personal advice, please contact our Customer Service team or project advisers.

Design Studios and distributors

Mosa has its own Design Studios in Maastricht, Amsterdam, and London where designers, architects, and clients can come to experience the look and feel of our entire tile collection. Alternatively, you can go to one of our distributors. Our website will provide more information on the distributors near you.

Any questions?

We set high standards for the advice and support provided to our clients. This means that we actively aim for dialogue and that we are interested in what interests you. This forms the basis for good cooperation. We are happy to contribute ideas and suggestions to make things as easy as possible for you. We are a partner, from the beginning to the end of the building process. Our Customer Service employees and your project adviser are always ready to assist you.
